The History of Douglas

Douglas lies close to the Mexican border, across from Agua Prieta. The town was founded in 1901, and was originally set up as a smelter site for ore from Bisbee, close by. At that time, two smelters were active here. Douglas was a mining pioneer, and the town was named after him.

Douglas also has a history of cattle ranching and agriculture, which continues through today. This is also Cochise County, which was historically home to Cochise, Geronimo, Wyatt Earp, and Doc Holliday, to name some; there are many locations in the mountains (Chiricahuas) and grasslands of Cochise County, where the stories involving these historical figures played out.

Lobby of the Gadsden Hotel

Douglas is home to the Gadsden Hotel, which was state of the art when it was built in 1907. It is on the National Historical Registry, and was home away from home for cattlemen, miners, bankers and anyone wanting the best the area could offer. The hotel was named after the Gadsden Purchase. It burnt down in 1929, but has been lovingly restored.

There is a lot of history in this area, and it is definitely worthwhile spending time in Douglas and the surrounding area; you might pick up some!
