## Military Corner

### Spotlight: Rick Grigaitis

**1. When did you join the military?**

I enlisted August 13th, 2013.

**2. Why did you join the military?**

I enlisted to make a difference in peoples lives, and to protect and serve the United States. I wanted to experience the military before I became too old, and I figured that time was soon approaching; so I went ahead and contacted a recruiter. Plus, they said the food would be good. They lied.

**3. In which branch did you serve or are you currently serving?**

I am currently in the US Army National Guard.

**4. How long were you or have you been in?**

July marks my 11th month in the Army.

**5. What was/is your job?**

I am a 68W Healthcare Specialist, more commonly known as a Combat Medic. That was the only job I wanted, and I couldn't be more happy to have achieved that MOS.

**6. Where were/are you stationed?**

Currently, I am attached to the 856th MP Co. in Prescott Valley. However, I have been to Missouri for Basic Training, and San Antonio for Medic School.

**7. What do you feel you learned from your military experience?**

That one should be more aware of what in life we take for granted, and that people from all walks of life can come together to overcome the greatest of challenges, and be a single, effective unit. Never doubt your abilities, and never stop pursuing your goals.

## T.E.A.M. SHOP

**FOR SALE:**

I have a pair of size 9.5 Brooks Pure Drift Running shoes. They are gently used. I also have purple laces that go with these.

They are similar to Nike Free Runners, which give minimal padding between the street and your feet. They are supposed to give you more of a sensation of running barefoot (and you can take out the cushioning inside in order to get more of that feel).

**Auto Ordinance Thompson Semiautomatic Tommy Gun model 1927 A-1**

This is your chance to own the world famous Tommy gun, the gun made famous by the gangsters of the Al Capone Era and Bonnie And Clyde. It was the era of the start of the FBI, Elliot Ness and the "Untouchables". Not too much later, the Tommy gun was issued to our Marines fighting in the Pacific and the Army fighting in Europe to defeat the Axis powers in World War II. This is an amazing gun, harder to find, and at the same time so much fun to shoot. Even though it is a 45 caliber, it has virtually no recoil, and feels like you are firing marshmallows. It comes with one stick magazine, like issued to our G.I.'s in WWII, but the gangster days drums (50 and 100 round magazines) are still available to buy. This gun was used by the US military until 1971, and is still used by many militaries though out the world. Be aware this is a fairly heavy gun ( almost 13 lbs., and about another 6 lbs. for a full 100 round magazine!)

This gun comes NIB, with a carrying case (which does have a minor blemish) , sling, manual and registration card.

Price \$1200 plus sales tax, and layaway is available.

**Smith and Wesson Lady Smith Revolver Model 65-5 357 Magnum**

This 3 inch barrel, slim grip and fixed sight revolver is a great investment and extremely reliable. 6 shot capacity, it is a high stopping power, yet low profile protector, suitable for anyone. Don't let the name Lady Smith fool you – This is enough gun for both men and women. Gently used, this gun is a steal at \$550. (most on line prices are around \$700), and comes with a soft sided carrying case. This is a private sale.

Please contact shop@teamsecurity.net if you are interested in either gun.

We have several office, administrative and management positions that we are accepting applications for. It is our policy to advertise them internally first, and to give the opportunity to promote from within. Please review the basic job description listed on our website, by advertising the link below to those available positions. We will update positions on a regular basis, so please check back periodically. We are an Equal Opportunity Employer.

The character of this company is made up by the individuals who represent us. Certain values like honor and integrity are at the core of what we do. To bring somebody from the outside, we have to search for somebody who understands and embodies those values; and they are getting increasingly difficult to find. By promoting from within, we are able to select from those of you who have worked in the field and understand what this company represents thereby allowing us to focus more on the skills and aptitude of the individual. Additionally, it allows us to keep the depth of our knowledgebase intact as well as providing fresh insight of what we can do to make it better for the individual employees. I encourage anybody having the necessary skills and aptitude to apply for the position you feel you are suited for. Keep up the good work and I look forward to seeing you all continue to grow with us. - Frank Herbert

"When you put a lot of hard work into one goal and you achieve it, that's a really good feeling."—Derek Jeter
